CAREER SUMMARY

A Software Engineer with 5+ years of experience building scalable web applications, now transitioning into Technical Product Management. Combines deep technical expertise in Angular, React, and modern web development with formal certification in Technical Product Management from Treford. Proven ability to translate business requirements into technical specifications, collaborate effectively with cross-functional teams, and guide products from conception to launch. Aims to leverage a strong engineering background to drive product strategy, prioritize features, and deliver user-centric solutions that align with business goals.

CORE COMPETENCIES

- **Frontend Development:** React.js, Angular 15+, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3/SASS, Tailwind CSS.
 - **Full-Stack & Backend:** Node.js, Express, Python, MongoDB, SQL (PostgreSQL/MySQL).
 - **Mobile Development:** Flutter, React Native (Expo) – capable of building cross-platform mobile apps leveraging React expertise.
 - **UI/UX & Delivery:** Responsive Design, Accessibility (WCAG), Cross-browser Compatibility, Performance Optimization (Lighthouse), CI/CD.
 - **API Integration & Collaboration:** RESTful APIs, State Management, Collaboration with Design & Backend Teams, Mentoring & Code Reviews.
 - **Technical Product Management:** Roadmap Planning, Stakeholder Management, Agile & Scrum Methodologies, Requirements Gathering, MVP Definition, Go-to-Market Strategy.
-

TECHNICAL PRODUCT MANAGEMENT FOCUS

- **Product Vision & Strategy:** Ability to align development work with overarching product goals and business objectives.
- **Stakeholder Communication:** Skilled at bridging the gap between technical teams and non-technical stakeholders, including product managers and designers.
- **Agile Execution:** Hands-on experience with Agile/Scrum methodologies, understanding sprint planning, backlog grooming, and iterative delivery.
- **Technical Insight:** Capable of making informed prioritization decisions based on a clear understanding of technical dependencies, effort, and risk.

WORK EXPERIENCE

Data Engineer

Awarri | Contract | Lagos, Nigeria

February 2026 – June 2026

- Design, develop, and maintain scalable ETL/ELT data pipelines.
- Build and manage structured data workflows for box office data processing.
- Ensure data integrity, validation, and quality assurance across datasets.
- Automate data ingestion, cleaning, and transformation processes.
- Monitor system performance and optimize for efficiency and reliability.
- Maintain proper documentation of pipelines, schemas, and processes.

Frontend Developer

KOAA Solutions | Full Time | Lagos, Nigeria

August 2023 – Present

- Designed and developed scalable frontend modules in Angular 15 and TypeScript.
- Wrote unit and integration tests using Jest and ngMocks to ensure code quality.
- Participated in sprint planning, architecture documentation, and peer code reviews.
- Integrated CI/CD pipelines and collaborated with QA teams on E2E test automation.
- Delivered reusable Angular components for R&D and client-specific configurations.

Frontend Developer (Angular)

ScentsCDN | Full Time | Remote (Edmonton, Canada)

January 2023 – May 2023

- Led the overhaul of a CDN dashboard using Angular, with full form handling, routing, and service logic.
- Applied debugging strategies and performance tuning to support high-traffic demands.
- Collaborated cross-functionally to troubleshoot live user issues and support case resolutions.

Frontend Developer

Beatify.ng | Full Time | Remote

October 2022 – January 2023

- Built responsive Angular interfaces and contributed to component refactor for scalability.
- Followed best practices for cross-browser support and clean code principles.
- Supported feature delivery in alignment with design, product, and QA expectations.

Software Engineer

Goal-Tile Inc | Part-Time | Remote

January 2021 – present

- Developed reusable components and adaptive layouts for the company's web platform.
- Maintained CI workflows and Git version control for smooth deployment cycles.
- Delivered backend-connected features with REST APIs and ensured faultless operation.

EDUCATION AND CERTIFICATION

- **B.Sc. in Computer Science & Engineering**
Obafemi Awolowo University, Nigeria | 2014 – 2019
- **National Diploma in Computer Science & Technology**
Yaba College of Technology, Lagos | 2010 – 2012

Certifications:

- Technical Product Management – Treford (Certification focused on product strategy, lifecycle management, and stakeholder alignment)
- Product Management – Project Management Institute
- Project Management – Project Management Institute
- Angular – The Complete Guide (Maximilian Schwarzmuller)
- Zero To Mastery: Frontend Development Bootcamp
- The Ultimate React Course (Jason Schmedtmann)
- Responsive Web Development (Aptech)

EXTRACURRICULAR ACTIVITIES/ACHIEVEMENTS

- [Raata.deals](#): Developed a performant React-based e-commerce app with reusable UI modules and API integrations.
- [Doodlesstick.com](#): Created a cross-browser compatible health agency website with Angular and Charts.js components.
- [Goal-tile.com](#): Developed a responsive webapp for a talent management company.
